

NuttX Community Wiki

The NuttX Community Wiki is an open wiki maintained by the NuttX community, based on DokuWiki software, and is open to be edited by anyone. If you need help getting started editing, you can ask for help in the community forum, or here's a link to the formatting syntax.

Creating a new entry

1. Enter the url for the new wiki page in your browser:
`http://nuttx.org/doku.php?id=wiki:newwikipage`. For example, to start a wiki on the "NuttX Pseudo-Filesystem", you could use the following URL:
`http://nuttx.org/doku.php?id=wiki:pseudo-file-system`.
2. If the page didn't exist, you will see the title **This topic does not exist yet**, and you can click the **Create** button in the upper right corner to start adding content, following the DokuWiki formatting syntax.

Contents

- NuttX Developers
 - [Gregory Nutt](#)
- NuttX Graphics
 - [NuttX Graphics Subsystem \(NX\)](#)
 - [NuttX Widgets \(NxWidgets\)](#)
 - [NuttX Window Manager \(NxWM\)](#)
